High

The Viterbi School congratulates Francisco Valero-Cuevas, Director of the Brain-Body Dynamics Lab, Professor in the Department of Biomedical Engineering and Division of Biokinesiology and Physical Therapy, for the 2013 Award for Outstanding Technical Achievement from the Hispanic Engineer National Achievement Award Corporation.

Dr. Valero-Cuevas was honored for his research in neuromuscular systems and sensorimotor control, and also for his mentorship of students and serving as a role model in the Hispanic community.
