

CONGRATULATIONS TO
Shang-Hua Teng
RECIPIENT* OF THE
2015 Gödel Prize

***Shang-Hua is a
repeat awardee of
the Gödel Prize**

USC Viterbi

The USC Viterbi School of Engineering is proud to announce that **Shang-Hua Teng**, Seeley G. Mudd Professor of Computer Science and Mathematics, has been awarded the 2015 Gödel Prize for his "groundbreaking work on nearly-linear-time Laplacian solvers."

This is an historic second win for Teng who was first awarded the prize in 2008 for his joint work on smoothed analysis of algorithms.

The competitive award, which recognizes major contributions to mathematical logic and the foundations of computer science, is presented by the European Association for Theoretical Computer Science (EATCS) and ACM's Special Interest Group on Algorithms and Computation Theory (SIGACT).

Teng is an ACM Fellow, Sloan Fellow, and a Simons Investigator. He is also the recipient of the 2009 AMS Fulkerson Prize, and a best paper award at the 2011 ACM Symposium on Theory of Computing.
