

The USC Viterbi School of Engineering congratulates **John Brooks Slaughter**, professor in the Ming Hsieh Department of Electrical Engineering and the USC Rossier School of Education, for receiving the 2015 HENAAC Chairman's Award from Great Minds in STEM™. This honor recognizes "his lifelong quest of increasing minority participation in the science and engineering fields."

Professor Slaughter has a remarkably distinguished career. He served as president of Occidental College, former chancellor of the University of Maryland, and was the first African-American to head the National Science Foundation, among many other accomplishments. He is a Member of the National Academy of Engineering (NAE) and the Hall of Fame of the American Society for Engineering Education. He is also the founding editor of the international journal, *Computers & Electrical Engineering*.

For over a quarter century, Great Minds in STEM™ has recognized the achievements of America's top engineers and scientists as role models, innovators and champions for the next generation of STEM professionals.
